## Simple Inventory Tracking for Small Business

**Turn hours into minutes with this simple inventory counting tool without breaking the bank!**

The "Henry Ford" of business automation announces **ActionTrak MICRO**, a simple yet innovative approach to solving your Inventory Counting and Tracking problems. We've been listening to our customers and responded by creating a product for these challenging times.

"With over 30 years experience developing barcode-based tracking solutions for large and small businesses, I wanted to create a "toolkit" which would become the "Swiss army knife" for small business!" -Mike Rich, Founder ActionTrak

**Save time and money by simplifying your inventory counting process:**

o **Use AT-MICRO software to:**

- Use your existing UPC or SKU based barcodes, or...
- Print your own barcodes with description, barcode, and price on label
- Use labels from your local office supply store
- Print barcodes on-demand using optional barcode printer
- Apply barcodes to shelf or product
- Maintain list of inventory Items
- Hundreds, thousands, or even hundreds of thousands of Items? No problem!
- Compare counts with on-hand quantity to quickly find exceptions
- Import/Export Item info or integrate with your existing software using optional plug-in

o **Use portable scanner to:**

- Scan barcodes and enter quantity needed or on-hand
- Use multiple scanners for even quicker inventory counting
- And more...

o **Additional modules for ActionTrak Micro:**

- **EZ-Order** purchasing system
- **EZ-Sales** for sales order generation and fulfillment
